

# Ericaceae: The Botany of Blueberries, Cranberries, Rhododendron & Azaleas

Dr. Clevinger has studied at Hiram College, Michigan State and the University of Texas. This is her 13<sup>th</sup> year on the Walsh faculty where she teaches botany, ecology and the freshman biology lab and conducts research on rosin weeds which are in the Sunflower family and are present throughout the eastern U.S. She lives and gardens in Hartville with husband, Curtis, and their 3 sons. She is also a member of the Hartville Garden Club.

Dr. Jennifer Clevinger –  
Walsh University

Dr. Clevinger has presented many topics for the Master Gardeners. This year she will be explaining the mysteries of Ericaceae. Join us for what is always a fun and informative evening.

October 10, 2017 5:30 pm

Walsh University Environmental Field Center  
@ Hoover Park  
East Maple Street, North Canton

RSVP to Carroll Rippel at  
[tchric@hotmail.com](mailto:tchric@hotmail.com) or 330-499-6863  
by October 3

Class is limited to 24 due to space limitations.

**Directions:** Turn into Hoover Park at the Walsh University North Campus sign. Turn right at the Stop sign and follow the drive to the left. At the Tennis Complex sign, go right following the road to the end and park. The Environmental Field Center is uphill in the cottage on the right, opposite the Ohio Native Plant Garden.

Bring a flashlight to light your pathway to the parking lot at program's end.
