

Native Plants Add Drama

This presentation will be about plants and plants that attract birds. Learn how to attract the birds, plus the insects and animals you love to watch and avoid the pitfalls of attracting nature's not-so-nice.

Sooooo.....

If you're a gardener who enjoys birds and nature you'll be doubly happy.

Cheryl Harner

June 12, 2018

1:00-3:00 pm *

**Note that this is a day class
and the**
